**GASPARI
MENOTTI**

GASPARI MENOTTI MULTIWIRE

Our advanced Gaspari Menotti Multiwire machine - the largest in Rajasthan, ensures precise and efficient block-to-slab cutting. It enables high-volume processing with consistent quality.

PROMOTEC RESIN LINE

The Promotec resin line enhances slab strength and aesthetics through resin treatment and UV curing. This allows us to deliver structurally sound slabs.

GASPARI MENOTTI POLISHING

Our slabs are polished using Gaspari Menotti polishing lines that guarantee high-gloss finishes, flatness, and refined detailing. With uniform finish and improved visual appeal ideal for international standards.

A wide-angle photograph of a large industrial stone processing facility. The space is filled with numerous stacks of large, rectangular stone slabs in various colors and patterns, including light beige, grey, and dark black with white veining. The slabs are arranged in rows, some standing upright and others lying flat. In the background, a yellow overhead crane is visible, and a person can be seen walking through the aisles. The floor is a smooth, light-colored concrete. The overall atmosphere is one of a busy, large-scale manufacturing or storage environment.
